Report on Matters Identified as a Result of the Audit of the Financial Statements

Board of Commissioners and Management
SouthWest Transit
Eden Prairie, Minnesota

In planning and performing our audit of the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of SouthWest Transit (SWT), Eden Prairie, Minnesota, as of and for the year ended December 31, 2019, in accordance with auditing standards generally accepted in the United States of America, we considered SWT's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of SWT's internal control. Accordingly, we do not express an opinion on the effectiveness of SWT's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that have not been identified. In addition, because of inherent limitations in internal control, including the possibility of management override of controls, misstatements due to error or fraud may occur and not be detected by such controls.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of SWT's financial statements will not be prevented, or detected and corrected, on a timely basis. A reasonable possibility exists when the likelihood of an event occurring is either reasonably possible or probable as defined as follows:

- *Reasonably possible.* The chance of the future event or events occurring is more than remote but less than likely.
- *Probable.* The future event or events are likely to occur.

We did not identify any deficiencies in internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

The accompanying memorandum also includes financial analysis provided as a basis for discussion. The matters discussed herein were considered by us during our audit and they do not modify the opinion expressed in our Independent Auditor's Report dated April 14, 2020, on such statements.

This communication is intended solely for the information and use of management, the Board of Commissioners, others within SWT, and state oversight agencies and is not intended to be, and should not be, used by anyone other than these specified parties.

SouthWest Transit Required Communication

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of SWT as of and for the year ended December 31, 2019. Professional standards require that we advise you of the following matters related to our audit.

Our Responsibility in Relation to the Financial Statement Audit

As communicated in our engagement letter, our responsibility, as described by professional standards, is to form and express opinions about whether the financial statements prepared by management with your oversight are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America. Our audit of the financial statements does not relieve you or management of its respective responsibilities.

Our responsibility, as prescribed by professional standards, is to plan and perform our audit to obtain reasonable, rather than absolute, assurance about whether the financial statements are free of material misstatement. An audit of financial statements includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of SWT's internal control over financial reporting. Accordingly, as part of our audit, we considered the internal control of SWT solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

We are also responsible for communicating significant matters related to the audit that are, in our professional judgement, relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures for the purpose of identifying other matters to communicate to you.

Generally accepted accounting principles provide for certain Required Supplementary Information (RSI) to supplement the basic financial statements. Our responsibility with respect to the RSI, which supplements the basic audited financial statements, is to apply certain limited procedures in accordance with generally accepted auditing standards. However, the RSI was not audited and, because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance, we do not express an opinion or provide any assurance on the RSI.

Our responsibility for the supplementary information accompanying the financial statements, as described by professional standards, is to evaluate the presentation of the supplementary information in relation to the financial statements as a whole and to report on whether the supplementary information is fairly stated, in all material respects, in relation to the financial statements taken as a whole.

Our responsibility with respect to the other information in documents containing the audited financial statements and auditor's report does not extend beyond the financial information identified in the report. We have no responsibility for determining whether this other information is properly stated. This other information was not audited and we do not express an opinion or provide any assurance on it.

SouthWest Transit Required Communication

Our Responsibility in Relation to *Government Auditing Standards*

As communicated in our engagement letter, part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, we performed tests of SWT's compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the termination of financial statement amounts. However, the objective of our tests was not to provide an opinion on compliance with such provisions.

Planned Scope and Timing of the Audit

We conducted our audit consistent with the planned scope and timing we previously communicated to you.

Compliance with All Ethics Requirements Regarding Independence

The engagement team, others in our firm, as appropriate, our firm, and our network firms have complied with all relevant ethical requirements regarding independence.

Qualitative Aspects of Significant Accounting Practices

Significant Accounting Policies

Management has the responsibility to select and use appropriate accounting policies. A summary of the significant accounting policies adopted by SWT is included in the notes to financial statements. There have been no initial selection of accounting policies and no changes to significant accounting policies or their application during 2019. No matters have come to our attention that would require us, under professional standards, to inform you about (1) the methods used to account for significant unusual transactions and (2) the effect of significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus.

Significant Accounting Estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's current judgements. Those judgements are normally based on knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ markedly from management's current judgements. The most sensitive estimates affecting the financial statements were:

Depreciation – SWT is currently depreciating its capital assets over their estimated useful lives, as determined by management, using the straight-line method.

Net Pension Liability, Deferred Outflows of Resources Related to Pensions, and Deferred Inflows of Resources Related to Pensions – These balances are based on an allocation by the pension plans using estimates based on contributions.

Total Other Post Employment Benefits (OPEB) Liability, Deferred Outflows of Resources Related to OPEB and Deferred Inflows of Resources Related to OPEB – These balances are based on an actuarial study using the estimates of future obligations of SWT for post employment benefits.

SouthWest Transit Required Communication

Qualitative Aspects of Significant Accounting Practices (Continued)

Significant Accounting Estimates (Continued)

We evaluated the key factors and assumptions used to develop the accounting estimates and determined that they are reasonable in relation to the financial statements taken as a whole.

Financial Statement Disclosures

Certain financial statement disclosures involve significant judgment and are particularly sensitive because of their significance to financial statement users. The financial statement disclosures are neutral, consistent, and clear.

Significant Difficulties Encountered during the Audit

We encountered no significant difficulties in dealing with management relating to the performance of the audit.

Uncorrected and Corrected Misstatements

For the purposes of this communication, professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that we believe are trivial, and communicate them to the appropriate level of management. Further, professional standards require us to also communicate the effects of uncorrected misstatements related to prior periods on the relevant classes of transactions, account balances or disclosures, and the financial statements as a whole.

Management did not identify and we did not notify them of any uncorrected financial statement misstatements.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter, which could be significant to SWT's financial statements or the auditor's report. No such disagreements arose during the course of our audit.

Representations Requested from Management

We have requested certain written representations from management, which are included in the management representation letter.

Management's Consultations with Other Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters. Management has informed us that, and to our knowledge, there were no consultations with other accountants regarding auditing and accounting matters.

Other Significant Matters, Findings, or Issues

In the normal course of our professional association with SWT, we generally discuss a variety of matters, including the application of accounting principles and auditing standards, operating conditions affecting SWT, and operating plans and strategies that may affect the risks of material misstatement. None of the matters discussed resulted in a condition to our retention as SWT's auditor.

SouthWest Transit Required Communication

Other Information in Documents Containing Audited Financial Statements

We applied certain limited procedures to the RSI that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

With respect to the supplementary information accompanying the financial statements, we made certain inquiries of management and evaluated the form, content and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

We were not engaged to report on the other information accompanying the financial statements but are not RSI. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

SouthWest Transit Financial Analysis

The following pages provide graphic representation of select data pertaining to the financial position and operations of SWT for the past five years. The graphs are included to facilitate discussion of past operating results and related trends for future years' operations of SWT. Our analysis of each graph is presented to provide a basis for discussion of past performance and how implementing certain changes may enhance future performance. We suggest you view each graph and document if our analysis is consistent with yours. A subsequent discussion of this information should be useful for planning purposes.

TOTAL REVENUES BY SOURCE – ALL FUNDS

**SouthWest Transit
Financial Analysis**

TOTAL REVENUES BY SOURCE – ALL FUNDS (CONTINUED)

Revenue increased \$446,258 in 2019 compared to 2018.

- Met Council revenue decreased \$152,658
 - SWT received a state appropriation in 2018 in the amount of approximately \$406,000, which expired in June of 2019 and a lesser amount of approximately \$141,000 was received in 2019
 - SWT received an approximately \$76,000 grant for an East Creek Station generator in 2018, which similar funding was not received in 2019
 - The previous decreases were offset by increases in funding of approximately \$146,000 related to ramp repairs and approximately \$33,000 for fleet rehabilitation
- Motor vehicle sales tax increased \$259,602
 - This revenue is determined by a state allocation of vehicle sales tax in Minnesota and fluctuates each year based on vehicle sales in Minnesota
- Passenger fares decreased \$88,247 as a result of a 5.6% decrease in ridership
- Other revenue increased \$430,681 due primarily to increases in investment income and the sale of land previously held for resale

SouthWest Transit Financial Analysis

TOTAL REVENUES AND EXPENDITURES – ALL FUNDS

Total expenditures exceeded total revenues in four of the last five years, which was by design to bring fund balance levels in line with Met Council's policies. In 2019, expenditures exceeded revenues by \$1,363,819. Total revenues increased \$446,258, as mentioned on the previous page, while expenditures increased \$2,343,808. There were some changes in expenditures by program:

- Debt service principal retirement expenditures increased \$1,224,593.
 - Result of early payoff of \$644,402 in principal for the Government Leasing-Energy Savings Performance Project and \$650,000 in principal for the SouthWest Village Parking Ramp Certificates of Participation.
- Buildings and grounds capital outlay expenditures increased \$983,280.
 - Primarily the result of construction at the Eden Prairie garage related to the relocation of offices.
- Operations and vehicle maintenance capital outlay expenditures increased \$163,143.
 - Purchased five new vehicles for use in Prime service.
 - Costs for fleet rehabilitation of four MCI coaches.

SouthWest Transit Financial Analysis

CASH AND FUND BALANCE – ALL FUNDS

The cash and investment balance was lower than fund balance in all five years presented. Cash and investments decreased \$184,034 while fund balance decreased \$1,303,226 from 2018 to 2019.

The fund balance decreased due in large part to the significant expenditures associated with the construction at the Eden Prairie garage related to the relocation of offices, the early payoff of debt, and the other increases in expenditures as discussed on the previous page.

The General Fund balance increased \$87,409 to \$4,378,019 in 2019 due to revenues from operations and grants coming in over expenditures and transfers to other funds. The unassigned fund balance in the General Fund as of December 31, 2019, is \$3,914,830, which represents approximately 34%, or four months of expenditures, based on 2019 budgeted operating expenditure levels.

SouthWest Transit Financial Analysis

GENERAL FUND EXPENDITURES – BUDGET TO ACTUAL

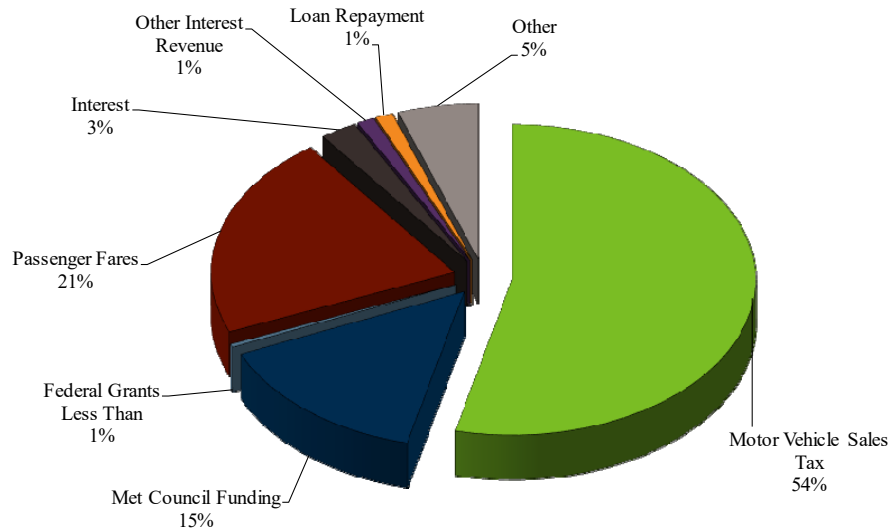

General Fund budgeted expenditures exceeded actual expenditures in all five years presented. Expenditures were under budget by \$64,804 in 2019. The largest variance was in operations and vehicle maintenance capital expenditures, which were \$35,268 under budget. Nearly all of the categories were under budget with the exception of general government current expenditures, which was over budget by \$80,515.

SouthWest Transit Financial Analysis

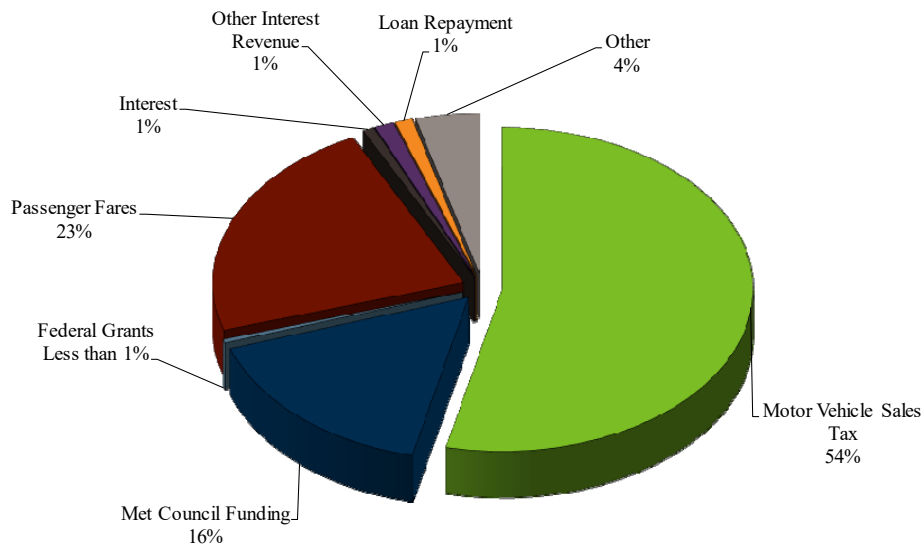

OPERATING REVENUES

The following pie charts show the allocation of revenue by source for all funds in 2019 and 2018. As illustrated below, revenue sources stayed relatively consistent from year to year.

Operating Revenues by Source for 2019 - All Funds

Operating Revenues by Source for 2018 - All Funds

In the General Fund, the regional target for passenger farebox recovery revenue percentage in relation to operating expenditures is 28%. During 2019, SWT's passenger fare revenue as a percentage of operating expenditures was 25.92%, while it was 26.10% in 2018.

SouthWest Transit Financial Analysis

OPERATING EXPENDITURES

The following pie charts show the allocation of expenditures by program for the General Fund in 2019 and 2018. The allocation is fairly consistent with 2018.

Operating Expenditures by Department for 2019 - General Fund

Operating Expenditures by Department for 2018 - General Fund

SouthWest Transit Emerging Issue

Executive Summary

The following is an executive summary of financial and business related updates to assist you in staying current on emerging issues in accounting and finance. This summary will give you a preview of the new standards that have been recently issued and what is on the horizon for the near future. The most recent and significant update includes:

- **Accounting Standard Update – GASB Statement No. 87 – Leases** – GASB has issued GASB Statement No. 87 relating to accounting and financial reporting for leases. This new statement establishes a single model for lease accounting based on the principle that leases are financing of the right to use an underlying asset.

The following is an extensive summary of the current update. As your continued business partner, we are committed to keeping you informed of new and emerging issues. We are happy to discuss these issues with you further and their applicability to your organization.

ACCOUNTING STANDARD UPDATE – GASB STATEMENT NO. 87 – LEASES

The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.

A lease is defined as a contract that conveys control of the right to use another entity's nonfinancial asset (the underlying asset) as specified in the contract for a period of time in an exchange or exchange-like transaction. Examples of nonfinancial assets include buildings, land, vehicles, and equipment. Any contract that meets this definition should be accounted for under the leases guidance, unless specifically excluded in this Statement.

A short-term lease is defined as a lease that, at the commencement of the lease term, has a maximum possible term under the lease contract of 12 months (or less), including any options to extend, regardless of their probability of being exercised. Lessees and lessors should recognize short-term lease payments as outflows of resources or inflows of resources, respectively, based on the payment provisions of the lease contract.

**SouthWest Transit
Emerging Issue**

**ACCOUNTING STANDARD UPDATE – GASB STATEMENT NO. 87 – *LEASES*
(CONTINUED)**

A lessee should recognize a lease liability and a lease asset at the commencement of the lease term, unless the lease is a short-term lease or it transfers ownership of the underlying asset. The lease liability should be measured at the present value of payments expected to be made during the lease term (less any lease incentives). The lease asset should be measured at the amount of the initial measurement of the lease liability, plus any payments made to the lessor at or before the commencement of the lease term and certain direct costs. A lessee should reduce the lease liability as payments are made and recognize an outflow of resources (for example, expense) for interest on the liability. The lessee should amortize the lease asset in a systematic and rational manner over the shorter of the lease term or the useful life of the underlying asset. The notes to financial statements should include a description of leasing arrangements, the amount of lease assets recognized, and a schedule of future lease payments to be made.

A lessor should recognize a lease receivable and a deferred inflow of resources at the commencement of the lease term, with certain exceptions for leases of assets held as investments, certain regulated leases, short-term leases, and leases that transfer ownership of the underlying asset. A lessor should not derecognize the asset underlying the lease. The lease receivable should be measured at the present value of lease payments expected to be received during the lease term. The deferred inflow of resources should be measured at the value of the lease receivable plus any payments received at or before the commencement of the lease term that relate to future periods. A lessor should recognize interest revenue on the lease receivable and an inflow of resources (for example, revenue) from the deferred inflows of resources in a systematic and rational manner over the term of the lease. The notes to financial statements should include a description of leasing arrangements and the total amount of inflows of resources recognized from leases.

GASB Statement No. 87 is effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged.

Information provided above was obtained from www.gasb.org.
